CLASSIC BLADES

BKT
BECKER KNIFE + TOOL CORP.

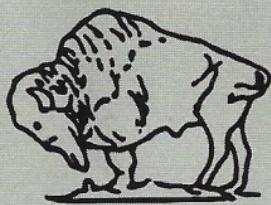

HOFFMAN DESIGN

That's the continuing tradition of Blackjack Knives, Ltd., a leading American manufacturer of specialty knives based in Effingham, Illinois. Mike Stewart established Blackjack Knives in 1987. In the early years, most Blackjack knives were made in Japan or from Japanese components like many other knife companies. This year, all Blackjack knives are made right here in America, by skilled American workers, at better quality and a lower cost to you.

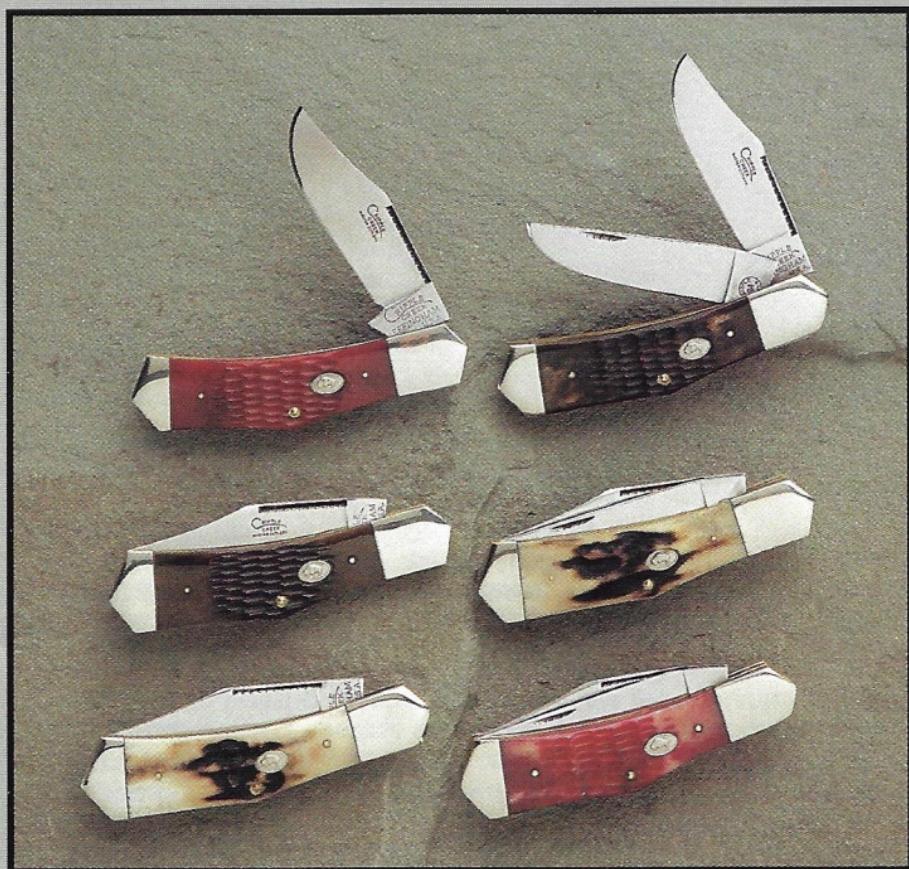

No matter what kind of knife fits your style or collection, the extensive Blackjack Knives lines have it. Every blade produced under the Blackjack name is skillfully hand-crafted, honed "Blackjack Sharp™" by trained professionals. Blackjack strives to be pioneers in the knife industry, and those efforts show in an extensive line of products. From the Ek Warrior line to Cripple Creek Pocket Knives to the unequaled Rescue 911 blade, Blackjack has just the knife you want, from tactical to sporting knives. Blackjack products are the finest blades at an affordable price, and each knife is backed by a lifetime guarantee. Precision. Performance. Quality. All are ingrained in the Blackjack family of knives.

CRIPPLE CREEK

For more than a decade, the Cripple Creek name has been synonymous with quality, creating classic, rugged pocket knives in a variety of designs. The Cripple Creek line has always been regarded highly as a top producer of hardy pocket knife designs and patterns. Cripple Creek knives come in a variety of sizes and with several blade combinations, so you can choose the model that is right for you. Each folding blade is made of top quality steel, practically indestructable and ideal for even the toughest chores. The Cripple Creek line — solid knives that fit right in the palm of your hand.

MODEL 1-7

Timeless. Durable. Practical. These are just a few of the many features of the Classic Model 1-7 from Blackjack Knives. With a polished carbon steel blade, meticulously hand-finished, the Model 1-7 is the finest military-style service knife available. Traditional styling makes this blade an award-winner; its functional abilities to slice right through hide, meat, branches or other materials make it a favorite with outdoorsmen. This knife includes complete, through-tang construction for ultimate stability and a double guard precisely manufactured entirely from high-grade American brass. Each Model 1-7 is also painstakingly honed and tested for edge quality and strength, and each is guaranteed for life. One of the sharpest edges you will ever own makes the 1-7 your perfect outdoors companion.

Blade Steel: 0170-6

Weight: 9.7 oz.

Blackjack's Classic Model 5 embodies the virtues of the Classic Model 1-7 with the shorter blade that some prefer. The result is a stout-looking, all-purpose belt knife, guaranteed for life. Like all Blackjack knives, the Model 5 features a hand-sharpened, convex, razor edge. This carbon steel blade is ideal for tough chopping and cutting tasks on the trail and is properly reinforced to back up solid blows you will deliver to clear some of the most overgrown paths. The Model 5 has the same classic design as its counterparts, the same rugged construction, but hosts a compact blade which sportsmen find ideal. This hardened, double-guarded knife has a blade-to-handle ratio designed to create the perfect angle for all tasks. You will feel the solid reliability of this knife as soon as you curl its handle between your palm and fingers. Like all Blackjack knives, the honed blade of the Model 5 retains the optimum mass needed for tough jobs while the point remains strong. From any point of view, this is a rugged pattern for rugged use.

MODEL 5

HALO I, A.W.A.C., SUB-HILT

The Blackjack H.A.L.O. I is a stoutly made, compact knife, capable of fitting the needs of troops both as a tool and as a weapon. The high carbon steel blade is convex-ground to a razor-sharp edge. The balance point is on the first finger. The blade can be moved in lightning-quick movements with total stability. The finger grooves provide an excellent, firm grip.

Blade Length: 6"
Blade Thickness: .1875" (3/16")
Sheath: Lined Cordura

Overall Length: 12"
Weight: 8 oz.
Suggested Retail Price: \$129.95

Blade Steel: 0170-6
Finish: Satin

The new Blackjack A.W.A.C. has been designed to be used in all climatic environments. ALL-WEATHER-ALL-CONDITIONS. This model is compact, light, quick and easy to pack or carry. The custom-shaped Micarta handle automatically aligns the blade for immediate, serious use. The razor-sharp blade is taper-ground from high carbon stainless steel and is peaked the full length to add stiffness for committed thrusting. The stainless steel guard is abbreviated for easy concealment but is large enough to prevent slippage. This unique pattern is very practical for both para-military and civilian sporting uses.

Blade Length: 6"
Blade Thickness: .1875" (3/16")
Sheath: Black Leather

Overall Length: 12"
Weight: 8 oz.
Suggested Retail Price: \$114.95

Blade Steel: 440-A
Finish: Satin

A welcome addition to the Classic line is Blackjack's Model 1-7 Sub-Hilt, with a double guard and an added second single quillion guard at 1 1/8" from the normal hilt. This feature allows the user to firmly lock the knife in a saber-style grip; once held in such a manner, the knife cannot be easily knocked from the hand and will not escape your grip as you use it aggressively to clear the way on the trail. This model is the first 100 percent U.S.A.-made production sub-hilt.

Blade Length: 7"
Blade Thickness: .1875" (3/16")
Sheath: Lined Cordura

Overall Length: 12"
Weight: 10 oz.

Blade Steel: 0170-6
Finish: Satin

SKINNER

The Blackjack Skinner's 5 1/2" blade provides performance and quality in a more compact package. Every detail of this model is painstakingly made to maximize performance for the sportsman. The convex-ground carbon steel blade is Blackjack Sharp™, tough, and as solid as all the other Blackjack Classics. The Skinner is made to tackle any job and not get in your way when sheathed.

Blade Length: 5 1/2"

HUNTER

Blackjack's Hunter provides the proven shape and construction of the Classic Model 1-7 with the more typical single quillion guard. The clipped point, near to center, is an advantage in every outdoor situation. There is plenty of sweep to the edge of the 7" blade for typically encountered hunting slices and cuts. The Blackjack Sharp™ convex edge in polished high carbon steel is a redoubtable tool, no matter what the need.

*Blackjack's
Newest Model!*

TRAILGUIDE

The Blackjack Trailguide is the newest model in the Classic sporting line. This dynamic new knife is an all-purpose trail and field knife. Its medium blade length and sweeping cutting curve are ideal for virtually all hunting tasks. The clipped point is a perfect angle for quick field dressing. The choil cutout allows a firm-secure choke-up grip for maximum edge control on finer cutting chores. The new Trailguide is compact, easy to pack or carry and tough enough for quartering heavy game without damage to the stout blade. Each Trailguide is hand convex-ground to be Blackjack Sharp™. The slim handle is built at exactly the proper angle for use. This is a genuine new pattern, destined to be a staple design for decades.

BROADHEAD, MINI-BROADHEAD

The Broadhead and Mini-Broadhead were designed in Blackjack's own profile for the professional or the novice. Both blades boast a symmetrical design perfect for balance and ease of throwing. The strength of each tenacious carbon steel blade is sufficient to withstand high impacts, so you can throw without worrying the blade may break.

Broadhead:

Blade Length: 7" **Overall Length:** 12" **Blade Steel:** 1075
Blade Thickness: .1875" (3/16") **Weight:** 11 oz. **Finish:** Satin Polished

Sheath: Leather **Suggested Retail Price:** \$19.95

BLUE DEVIL

Truly unique among its kind is the Blue Devil Sleeve Knife — it's ultra-concealable, weighs in at a feathery 2 ounces and was designed as flat as possible for ease of carrying. The shave-sharp, black oxide-finish steel blade's point can smoothly penetrate cloth, leather and webbing. The Blue Devil also may be thrown and will easily stick in soft targets such as wood.

Blade Length: 4" **Overall Length:** 8" **Blade Steel:** 1075
Blade Thickness: .125" (1/8") **Rc Hardness:** 55 **Weight:** 2 oz.
Finish: Black Oxide **Sheath:** Nylon Sleeve
Suggested Retail Price: \$29.95

EK #5 BOWIE

The Ek #5 Series has been developed to provide a deluxe Bowie-style "all-purpose" field knife for both combat and civilian sporting applications. This stout pattern evolved with American fighting men from the Civil War rifle knife. The design is purely American. The Ek #5 Bowie is precision-made from a solid bar of high carbon stainless steel. It is well-balanced in the hand and razor sharp. The extended pommel can be used for prying tasks. This multi-purpose tool will give you a lifetime of loyal service.

Blade Length: 6 3/4"

Blade Thickness: .187" (3/16")

Finish: Satin Polished

Suggested Retail Prices:

Weight: 11 oz.

New
**Dynmar Stag™
Handles**

EK #3 HALF GRIND

The Ek #3 Series is a deluxe version of the spear-pointed, dagger-style blade originally made in World War II by John Ek. The #3 pattern has a full-length main edge and a razor-sharp false (upper) edge. This versatile design was the most popular with G.I.s. The deluxe is hand satin polished with a forward raked brass guard. Construction is from one solid bar of high carbon stainless steel. The extended pommel can be used for prying. The heft and balance of the #3 is identical to the World War II original.

Blade Length: 6 1/2"
Blade Thickness: .160" (3/32")
Finish: Satin Polished
Suggested Retail Prices:

Overall Length: 12 1/2"
Rc Hardness: 57-58

Black Cord - \$129.95
Olive Drab Cord - \$129.95
Walnut - \$139.95
Micarta - \$149.95

Blade Steel: 440-C
Weight: 10 oz.

EK #4 STILETTO

The Ek #4 Series is identical to the #3 in construction and is full-length ground on both edges to make an ideal combat dagger. The spear-like point will easily penetrate the toughest encountered materials. This pattern was very popular with G.I.s from World War II to Desert Storm. The #4 pattern is lightning-quick in the hand and is meant for serious use by skilled professionals. It is one solid piece of tough steel that will cut both ways.

Blade Length: 6 1/2"

Blade Thickness: .160" (3/32")

Finish: Satin Polished

Suggested Retail Prices:

Overall Length: 12 1/2"

Rc Hardness: 57-58

Micarta - \$149.95

Blade Steel: 440-C

Weight: 10 oz.

EK #3 WARRIOR

Like its World War II forebearers, the Ek #3 Warrior is a spear-pointed dagger with a sharp false edge. The blade is one solid bar of tough stainless steel - matt/blasted for serviceable non-reflective finish. The flat, stainless guard is also matt/blasted to match the blade. The extended pommel expands the knife's usefulness as a prybar or light hammer. The hard rock maple handled version of the Ek #3 Warrior is the modern evolution of the most-used World War II original Ek.

Blade Length: 6 1/2"

Blade Thickness: .160" (3/32")

Finish: Non-Reflective Sand Blasted

Suggested Retail Prices:

Overall Length: 12 1/2" Blade Steel: 440-C

Rc Hardness: 57-58

Weight: 10 oz.

Sheath: Nylon Web

Black Cord - \$84.95

Olive Drab Cord - \$84.95

Maple Half Grind - \$94.95

EK #5 WARRIOR

The Ek #5 Warrior provides a Bowie-style blade rigged out like our #3 Warrior. This blade shape has become the true "Basic Soldier's Blade." "A great tool - a serious weapon." The #5 Warrior offers the same solid, one-piece construction, matt/blasted finish and extended pommel as the other Warrior models. This is an ideal size, heft and weight for field encounters.

Blade Length: 6 3/4"

Blade Thickness: .187" (3/16")

Finish: Non-Reflective Sand Blasted

Suggested Retail Prices:

Overall Length: 12 3/4" Blade Steel: 440-C

for '95!

Blackjack is now offering a new handle variation for 1995. This material is Dymar Stag™. Dymar is a polymer-based product that duplicates the look and feel of natural Sambar Stag. It is 100% stable and is totally unaffected by heat, light, oil and humidity. It will not crack or check like stag. This exciting new product allows you to have a stag-like handle with the durability and cost of Micarta.

EK #7 BOOT KNIFE

The Ek #7 Boot Knife fulfills the mission - it's compact, tough and big enough. The classic combination of boot knife and belt/boot clip leather sheath lays flat and out of the way until needed. At 7 1/4" overall with a 3" double-edged, stainless steel blade, the Ek #7 is clearly a sound choice for the back-up role.

Blade Length: 3"
Blade Thickness: .160" (3/32")
Finish: Satin Polished

Black Cord - \$69.95
Olive Drab Cord - \$69.95
Walnut - \$74.95
Micarta - \$79.95
Custom Onyx, Silver & Pearl - \$249.95

Patterned after the fighting knife made in Australia for American Pacific Forces in World War II, the Ek #10 "Australian Commando" is a unique spear point knife of Bowie style. This tough, high carbon stainless steel blade makes a versatile camp and field tool. It is more compact than the standard Ek patterns and is easy to pack and carry. The Aussie Bowie's solidly riveted American walnut handles feature a "birds-head" grip, contoured perfectly to settle in your hand and stay there. The one solid piece of steel running from point to butt adds to the knife's strength and performance.

Blade Length: 5 3/4"

Sheath: Leather

Suggested Retail Price:

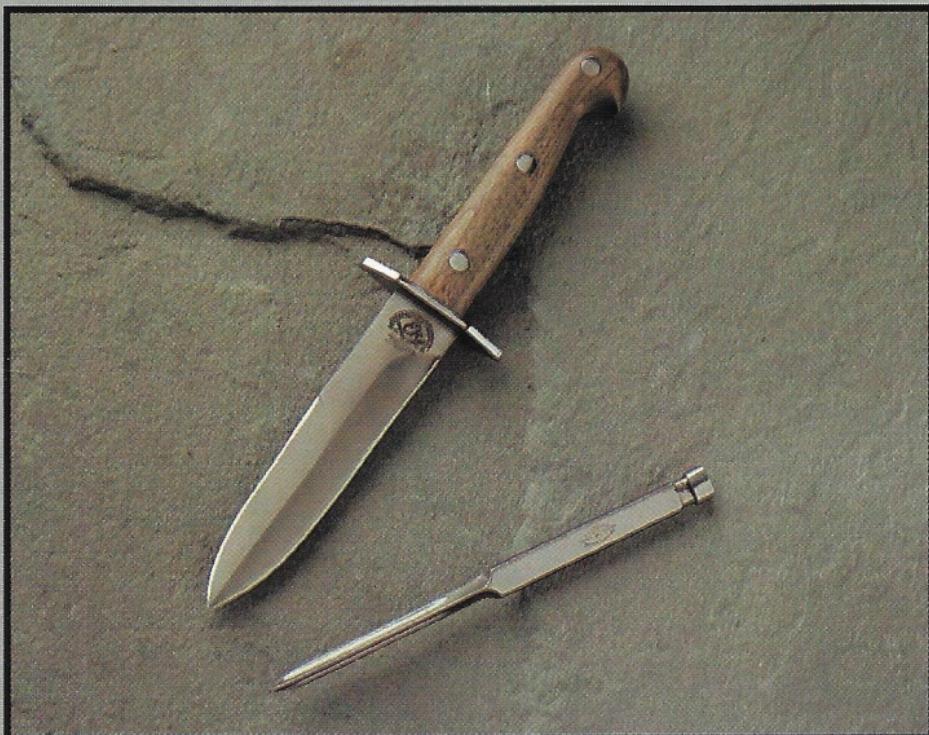

Overall Length: 11"

Rc Hardness: 57

\$99.95

Blade Steel: 440-C

AUSSIE BOWIE

OSS SLEEVE DAGGER

In World War II, when this knife was designed, special agents knew what they wanted and why. The OSS Sleeve Dagger is unique. The inconspicuous knife is handy in its leather sheath, designed to be double-strapped to the arm on the underside of the wrist, ready for use at any time. This one piece of thick, hardened steel is precisely crafted to a point, reinforced by the triangular blade, sharp enough and strong enough for all tasks.

Overall Length: 7"

Blade Steel: 440-A

\$89.95

Sheath: Leather

CAMPANION, RESQ/DIVTUL, MAGNUM CAMP KNIFE

The Campanion, Resq/DivTul and Magnum Camp knives make a unique series from Blackjack's Becker Knife and Tool Division.

The Campanion is a heavy, compact field knife that is perfect for rugged use. Its one-piece, rigid construction and carefully contoured blade with shaving-sharp edge make it ideal for all tough tasks. This knife is virtually unbreakable in any use.

Blade Length: 5" **Overall Length: 10 1/2"** **Blade Steel: 0170-6**
Blade Thickness: .250" (1/4") **Rc Hardness: 57** **Sheath: Leather**
Suggested Retail Price: **\$109.95**

Becker Knife and Tool is also well known for its specialized dive and rescue knife, the stout Resq/DivTul. This unique, ultra-compact tool includes a razor-sharp edge for chopping, a canted front lip for prying, partial serrations for tough cutting and a gut hook for severing rope, nylon line or light metal wire. The thick, solid steel of this knife from butt to point is a welcome weight in hand. This unique knife is an ideal "Swat Team" entry tool for law enforcement raid teams.

Blade Length: 6" **Overall Length: 11"** **Blade Steel: 440-A**
Blade Thickness: .250" (1/4") **Rc Hardness: 55** **Sheath: Lined Cordura**
Finish: Satin Non-Reflective **Suggested Retail Price:** **\$129.95**

The Magnum Camp Knife is Blackjack's newest entry into the BK&T line. This full length slicer makes short work of all camp chores. From chopping wood to food preparation, the Magnum has the heft and edge geometry to get the job done quickly and efficiently.

Blade Length: 8 1/2" **Overall Length: 14"** **Blade Steel: 440-C**
Weight: 16 oz. **Rc Hardness: 58** **Sheath: Leather**
Suggested Retail Price: **\$139.95**

RESCUE 911

The Hoffman Rescue 911 is designed for emergencies. The blunt tip slides safely under cloth, webbing, rope, leather, nylon line or para-cord. And, the razor-sharp edge on the inside of the blade's curve does the cutting with a quick-easy pull. This original design is patented and is a solid working tool. Blackjack has manufactured this model for a number of years with great success. Civilians, E.M.T.s, police departments, fire departments, emergency response teams and corrections institutions from all over the world use these unique tools.
